4. "A - the Komiteti Ekz. Qytetit, Tirane - Executive Committee of the People's Board of Tirana, is really the former municipal organization for the City of Tirana. It occupies the former Prefecture building, which is known commonly as Bashkia. The Committee consists of the President (Kryetar), Secretary (Sekretar) and 11 members (antar), called Pergjegjesi. Each member is in charge of a different part of the city administration:

<u>Tregtise</u>	- Commerce
<u>Finances</u>	- Finance

5. "Municipal elections are held every two years; the last were held in May 1952. The citizens of Tirana elect the members of the Executive Committee of the People's Board of the City of Tirana (Komiteti Ekz. Qytetit, Tirane - A. in the diagram). The members of that committee in turn appoint the members of the executive committees of the People's Boards in the three sectors (B., C., and D.) into which Tirana is divided. Each of these three sector executive committees consists of a president, secretary, and 11 members with the same duties as the 11 members in the People's Board for the city as a whole.

6. "The members of each K L (Kshilli Lagjes - sector council, but in Tirana actually a subcity sector) are elected after the municipal elections are over. The members of each K. L. are elected by the citizens residing in each particular subsector. The last such elections were in June 1952. Each Kshilli Lagjes consists of a president and a secretary who acts also as Prokurori (proctor) and Arktar (financial administrator). The president of the Kshilli Lagjes and his secretary - and this holds true of all Albanian towns, not just the city of Tirana - are powerful persons. All matters of jobs, housing and documentation must be done through them. Those two persons are equivalent to the block or house superintendents of other Communist countries. There are no block or house 'responsibles' in Albania. The various Kshilli Lagjes maintain a tenants' registry of all persons under their supervision. The Kshilli Lagjes have no offices for their activities. They meet in the offices of the city sector executive committees (B., C., and D) and report to them. Citizens who need the service of the Kshilli Lagjes call at the home of the president or the secretary of the one to which they are responsible. Each president of a Kshilli Lagjes has writing paper headed with the name of the Executive Committee of the People's Board to whom he is subordinate, (B., C., or D). He also has the stamp of this Committee, which he uses in preparing documents. The Kshilli Lagjes officers are not paid. Their activity is part of their normal civil duties as good citizens.

7. "The Housing Office was transferred in May 1951 from the building of the Komiteti Ekz. Qytet - Tirane (A) at Shehi Skanderberg to a building on the Bulevard Shqipria e Re. This move was made because of the crowds of applicants. Although there are sector councillors in the three sectors for commerce, finance, etc., all matters relating to labor and housing are performed under the central Executive Committee. The Tirana Labor Office consists of a director and a secretary. The telephone number of the Labor Office (Zyra e Punes) was 27-37 (automatic).

#### Organization of the Ministry of Internal Affairs in Tirana

8. "The following diagram shows the organization of the Ministry of Internal Affairs within the city of Tirana. This is actually the Security Police - Sigurimi Shtetit (S.SH.). although it may not say so on the front door. Each city sector has a S.SH. section (rajon), but there are no suboffices equivalent to the K. L.

#### Organization of the People's Board Through the Country

10. Enclosure (A) with legend shows the organization of the People's Board as it spreads out through the Albanian country, from the Council of Ministers in Tirana.

#### LEGEND

These are the regional Komitet Ekz K. P. Rrhetat. The People's Board in Tirana is divided into two committees because of the population. According to statistics prepared May 1952 by the Komisioni Planit Shtetit (Biv. Sh. e Re, Tirana) the population of Tirana was 170,650 and the total population of Albania was 1,350,000. These regional Executive Committees of the People's Board have the same sections (Tregtise, Finances, etc.) as described in paragraph 4. For the Komiteti Ekz. Qytetit - Tirana. Only these Committees have a Seksioni Punes (Labor Office) and a Seksioni Strehimit (Housing Office).

These are the People's Boards in the towns (chart shows only the regional network in the region of Kukes, passing down through the town of Krume). They are called Komitet Ekz. D. P. Lokalitetit. They come under the supervision of the Regional Committee for the area in which they lie. None of these Town Committees of the People's Board has either a Seksioni Punes or a Seksioni Strehimit. Thus, all labor and housing problems must be handled on the level of the Regional Committees.
